

BELINDA MTABANE

CONTACT

belindasweets98@gmail.com

KEY SKILLS

- Programming & Software Development
- Computer Science Education
- AI-Assisted Software Development
- Game Design & Development
- Object-Oriented Programming
- Computational Thinking
- Mathematics Instruction
- Problem Solving
- Technical Communication
- Curriculum Delivery
- AI Workflow Design
- Team Collaboration
- Leadership
- Creative Thinking
- Project Development
- Digital Content Creation
- Critical Thinking
- Adaptability

ABOUT ME

I am an enthusiastic and passionate developer with a strong foundation in C# and hands-on project experience. I thrive on inspiring minds, turning complex coding concepts into fun, engaging, and accessible Games. My excitement for Programming and innovation drives me to foster curiosity, creativity, and problem-solving skills. I am eager to share my knowledge, spark a love for programming, and empower the next generation of tech innovators. I am a curious individual, eager to learn, and passionate about turning challenges into opportunities for growth.

EDUCATION

Bachelor of Game Design and Game Development — 2024 - 2027

IIE Vega School
Design, Brand and Business School

- Current Undergraduate Student
- Relevant Coursework
- Object-Oriented Programming (C#)
- C++ code and blueprints
- Mathematics
- Computer Graphics
- Physics
- Game Design
- Software Development
- Artificial Intelligence Integration
- UI/UX Design
- Procedural genration
- Kotlin coding language

EXPERIENCE

AI Developer & Content Creator — Current

Self - Employed

- Develop AI-generated educational and entertainment content.
- Produce high-quality AI-generated videos using Google Flow.
- Build production workflows integrating Claude, Google Gemini, and generative AI technologies.
- Design AI-assisted content creation pipelines for scalable digital media production.

Web Developer (AI-Assisted Projects) — Current

Self - Employed

- Develop responsive websites using modern web technologies.
- Utilize AI-powered development workflows to improve productivity and code quality.
- Design user-friendly interfaces and implement front-end functionality.

TECHNICAL SKILLS

- Unity Game Development
- Unreal Engine Blueprints
- AI Prompt Engineering
- AI Video Production
- Gameplay Systems
- UI/UX Principles
- Mathematics
- Physics
- Computer Graphics
- Debugging
- Software Testing
- Version Control
- Agile Project Development

EXPERIENCE

Kodland (International Online Coding School)

Kodland

April - Present

- Deliver live online Computer Science and Programming lessons to international students.
- Teach programming fundamentals, including algorithms, variables, loops, functions, and debugging.
- Guide students through project-based coding and game development activities.
- Assess student progress and provide constructive feedback.
- Foster computational thinking, problem-solving, and creativity in an engaging online learning environment.

Assistant Tutor - Pure Mathematics, Physical Science in Computer Graphics

Vega College - School at Emeris

2025

- Subjects Assisted:
- Pure Mathematics
- Physics
- Computer Graphics

Responsibilities:

- Assisted students with technical concepts and academic support.
- Explained mathematical and programming concepts through practical examples.
- Supported students during practical and theory sessions.

Assistant Mathematics Tutor - Mathematics for Mathematics Computer Graphics

Self - Employed

2025

- Provided private Mathematics tutoring.
- Simplified complex mathematical concepts.
- Helped learners improve confidence, analytical thinking, and examination performance.
